The Board of the Port Authority is comprised of nine individuals from the private sector. Elected or appointed public sector employees are not permitted to serve on the board of the Port Authority. The Resolution that created the MCPA also has a unique clause in it that assures county-wide representation on the Board. The composition of the Board must include at least one individual from each city in the county; one from a township and one from a village. The Resolution that created the Port Authority also requires that at least three members of the Board be active in one of the County Chambers of Commerce.
